Thank you.

Very truly yours,

RESPONSE TO  
ATTORNEY GENERAL'S SECOND SET OF INFORMATION REQUESTS

D.T.E. 06-54

**REDACTED RESPONSE**

Respondent: Nancy G. Culliford

Date: September 20, 2006

Information Request AG-2-12 (redacted)

- Q. State the recourse rates for the Algonquin G-Lateral system expansion and provide the supporting documentation and explain the difference between the recourse rate and the negotiated rate.**
- A. The recourse rate for the Algonquin service to the Cape is comprised of two rate components: the rate for AFT-CL service on the new Cape Cod lateral, which is \$[redacted] (as shown on Exhibit P, Schedule 2, in Algonquin's FERC application in Docket No. CP06-143-000), plus the rate for AFT-CL service on the Canal Lateral of \$0.0686, which is set forth in the Algonquin FERC Gas Tariff, Sheet No. 38. Thus, the total recourse rate for both AFT-CL services is \$[redacted]. The negotiated rate to be paid by the Company for service on both laterals is \$[redacted].

Because this response contains confidential pricing information, the Company is requesting confidential treatment under the Motion for Protective Treatment previously filed in this case. A redacted version of the response is provided for the public record and a confidential copy is provided to the Hearing Officer and, in addition, to the Attorney General's office pursuant to a non-disclosure agreement.
